- C. I can think with my parents about what we can do to reduce our pollution.

QUIZ

ANSWERS

- 1. True.** Today, we are at the beginnings and some progresses are still to make to reduce pollution related to the construction of the electric cars.
- 2. Answer D.** Wind energy. The word éolienne comes from Greek mythology in which the god of the wind is called Eole! By the way, have you already seen a wind mill? It looks like a big mast with large propellers!
- 3. True.** This kind of energy is named tidal energy because it comes from the water movements created by the tides!
- 4. Answer B.** You take it to an approved centre which will carry out cleanup and recycling.
- 5. Answers A and C.** It's good for your health, you are not polluting during your displacements and you learn to know your environment.
- 6. Answer A.** It's a word referring to the feet.
- 7. True.** Adults are here to teach to the pupils the safety rules, to show them the right path, be sure they will arrive on time and to ensure that all the pupils actually go to school.
- 8. Answer B.** Be careful to let a place for the adult who drives!
- 9. True.** "Eco" refers to "ecologica". Travelling together is a particular attention to the respect of the environment, because then we use fewer vehicles for our displacements.
- 10. Answers A and C.** All the activities can allow the pupils to engage a real discussion at home about the environmental preoccupations, starting with walking for the ones who live near school.
